MD. SHAFIUL ISLAM – BACKEND DEVELOPER

I am a backend web developer, I have built several server-side web application logic and integration of the work front-end web developers do. I can work with the Node Js framework like Express Js. I can usually create RESTful APIs using Node Js. I use the MongoDB database for backend development.

Now I am learning to React-Redux for frontend development, and I am looking for a position where I can progress and challenge my skills.

SKILLS

Frontend	JavaScript, React js, Redux js, Bootstrap 4, HTML5, CSS, Template Engine(EJs)
Backend	Node js, Express js, Mongoose
Database	MongoDB, MySQL
Tools	Jira, Heroku, Visual Studio Code, Postman, Git

PROJECTS

ROAD ACCIDENT STATISTICS SYSTEM

- This is my B.Sc. Final year project. I use Node Js, Express Js, Ejs and MongoDB database to develop this web application.
- This web application mainly works with the chart, location accidents in Google map and poll system.

SHOPPING CART SYSTEM

- o I use Node Js, Express Js and MongoDB database for this project. I have created some RESTful API for this shopping cart project.
- o Admin can insert update delete the products. Only authenticated users can purchase something.

BLOG SYSTEM

- o I use Node Js, Express Js and MongoDB database for this project. I have created some RESTful API for this project.
- o Only authenticated users can post something, like the post and also can comment on a post.

EDUCATION
